Profile

DevOps Engineer with 6+ years of IT experience in Cloud, DevOps, and System Administration. Experienced in AWS, Terraform, Jenkins, Docker, Kubernetes, and CI/CD automation. Skilled in infrastructure provisioning, production support, monitoring, and incident management using CloudWatch, Prometheus, and Grafana. Passionate about building secure, scalable, and highly available cloud solutions.

Technical Skills

Cloud Platforms: AWS (EC2, S3, VPC, IAM, RDS, Lambda, ECR, EKS), Azure, GCP

Containers & Orchestration: Docker, Kubernetes

CI/CD & Automation: Jenkins, Terraform, Ansible, Git, GitHub

DevSecOps & WebServers: Maven, SonarQube, Trivy, Tomcat, Nginx

System Administration: Patch Management, Infrastructure Support, Troubleshooting

Operating Systems & Databases: Linux (RHEL/Ubuntu), Windows Server, MySQL

Scripting & Monitoring: Bash, Python, CloudWatch, Prometheus, Grafana

DevOps Practices: Release Management, Production Support, Hotfixes

ITSM Tools: Jira, BMC Remedy, BMC Helix

Professional Experiences

Unisys India Pvt. Ltd. | Enterprise Analyst / DevOps Engineer

Jul 2023 – Present

- Designed, provisioned, and managed AWS infrastructure using Terraform, including VPC, EC2, IAM, S3, Route 53, and networking components to support scalable and highly available environments.
- Built and optimized CI/CD pipelines using Jenkins, Git, Maven, SonarQube, Docker, and Trivy to automate application build, security scanning, testing, and deployment processes.
- Deployed and managed containerized applications on Kubernetes, performing rolling updates, node maintenance, patching, and cluster troubleshooting to ensure high availability.
- Automated infrastructure provisioning and configuration management using Terraform and Ansible, improving deployment consistency and reducing manual effort.
- Implemented monitoring and observability solutions using Prometheus, Grafana, AWS CloudWatch, and CloudTrail to proactively identify performance issues and improve system reliability.
- Provided production support by resolving deployment failures, troubleshooting infrastructure issues, performing root cause analysis (RCA), and supporting incident and change management activities.
- Developed and supported serverless workloads using AWS Lambda and DynamoDB, integrating cloud-native services into enterprise applications.
- Collaborated with development, QA, security, and operations teams to streamline release processes, improve deployment reliability, and deliver secure, scalable application environments.

Project Experiences

AutoClub — Automotive — DevOps Engineer

- Automated CI/CD pipelines using Jenkins and Terraform for application deployment on AWS.
- Managed Docker containers, Kubernetes deployments, infrastructure monitoring and production support activities.

T-Mobile — Telecommunications — DevOps Engineer

- Built CI/CD pipelines using Jenkins, Git, Maven and automated deployments with Docker and Amazon EKS.
- Provisioned AWS infrastructure using Terraform including VPC, EC2, IAM, S3, Route53, CloudWatch and ECR.
- Developed serverless automation using Lambda, SNS and S3 while monitoring applications with Prometheus and Grafana.

OTIS — Manufacturing — DevOps Engineer

- Built CI/CD pipelines using Azure DevOps, Git, and Terraform for Azure infrastructure automation.
- Managed containerized workloads on AKS and supported GCP services including Compute Engine, Google Kubernetes Engine (GKE), Cloud Storage, and IAM.
- Configured Azure Monitor, Log Analytics, and collaborated on production deployments and incident resolution.

Cloud Engineer at Taggd (PeopleStrong), Gurgaon

Feb 2023 – May 2023

HybridCloud Engineer at Team Lease Services Ltd, Gurgaon

Nov 2020 – Feb 2022

Systems Engineer at Enhance Business Solutions, Gurgaon

Dec 2019 – May 2020

Systems Engineer at MSR IT Ltd, Gurgaon

Oct 2018 – May 2019

Education

BCA, Jaipur National University

2015 – 2018
